

FINAL YEAR PROJECT - WEEKLY LOG FORM

[WEEK # 04]

1. Student & Project Information:

Student Name:	Student Id:	Attendance:
Saireen Malik	IU05-0122-0067	Present
Muhammad Ammar Zahid	IU05-0122-0096	Present
Muhammad Haris	IU05-0122-0078	Present

2. Summary of Weekly Work:

Main Objectives for the Week:

- Start defining the scope of the project
- Write functional and non-functional requirements

Tasks Completed:

- Document all functional requirements (what the system should do)
- Documented all the non-functional requirements.

Hours Worked:

- 5 Hours

3. Work In Progress:

Tasks not Completed:

- Some non-functional requirements were not quantifiable.

Challenges Encountered:

- Clearly differentiating between functional and non-functional requirements
- Making sure all user needs were properly addressed

Actions Taken / Solutions Implemented:

- Studies examples from similar system
- Took help from online resources to understand requirements writing properly

4. Planning for Next Week:

Planned Tasks & Objectives:

- Revise and update the functional and non-functional requirements.

Resources/Support Needed:

- Supervisor guidance for reviewing requirements.

5. Reflection & Feedback:

Key Learnings:

- Improved understanding of functional vs non-functional requirements.
- Learned to document requirements effectively.

Additional Comments:

- Clarified project scope.
- Need to focus on quantifying non-functional requirements.

Supervisor Feedback:

Supervisor Signature & Date:
