

FINAL YEAR PROJECT - WEEKLY LOG FORM

[WEEK # 06]

1. Student & Project Information:

Student Name:	Student Id:	Attendance:
Saireen Malik	IU05-0122-0067	Present
Muhammad Ammar Zahid	IU05-0122-0096	Present
Muhammad Haris	IU05-0122-0078	Present

2. Summary of Weekly Work:

Main Objectives for the Week:

- Finalize all system use cases.
- Create the complete use case diagram.

Tasks Completed:

- Detailed use cases documented.
- Use case diagram created Adobe Illustrator.

Hours Worked:

- 6 Hours

3. Work In Progress:

Tasks not Completed:

- Finalization of all use cases and diagram.

Challenges Encountered:

- Ensuring that each use case covered all necessary user interactions.
- Aligning the diagram format with UML standards.

Actions Taken / Solutions Implemented:

- Peer review within group for refining use cases.
- Validated diagram structure using UML guidelines and examples.

4. Planning for Next Week:**Planned Tasks & Objectives:**

- Create a **Requirements vs Use Case Mapping Table**.
- Ensure each functional requirement is linked to cases.

Resources/Support Needed:

- Supervisor feedback on the mapping table.
- Templates/examples for requirements mapping.

5. Reflection & Feedback:**Key Learnings:**

- Creating and reviewing detailed use cases helped understand system behavior clearly.
- Use case diagram provided a visual understanding of user-system interactions.

Additional Comments:

- Stronger clarity achieved on how the system will function from a user perspective.
- Ready to begin mapping in the upcoming week.

Supervisor Feedback:

Supervisor Signature & Date:
