

FINAL YEAR PROJECT - WEEKLY LOG FORM

[WEEK # 07]

1. Student & Project Information:

Student Name:	Student Id:	Attendance:
Saireen Malik	IU05-0122-0067	Present
Muhammad Ammar Zahid	IU05-0122-0096	Present
Muhammad Haris	IU05-0122-0078	Present

2. Summary of Weekly Work:

Main Objectives for the Week:

- Get approval for all use cases.
- Get approval for use case diagram.
- Get approval for mapping table of use cases and requirements.

Tasks Completed:

- Supervisor reviewed and approved detailed use cases.
- Final version of the use case diagram approved.
- Created and finalized the Requirements vs Use Case Mapping Table.

Hours Worked:

- 7 Hours

3. Work In Progress:

Tasks not Completed:

- None

Challenges Encountered:

- Mapping each requirement to the correct use case without overlap.

- Adjusting the diagram as per final feedback.

Actions Taken / Solutions Implemented:

- Refined mapping table with group discussion and supervisor input.
- Iterated diagram to match updated use cases and UML conventions.

4. Planning for Next Week:**Planned Tasks & Objectives:**

- ()

Resources/Support Needed:

- ()

5. Reflection & Feedback:**Key Learnings:**

- Approval process clarified all doubts in system behavior and structure.
- Mapping helped identify missing interactions early on.

Additional Comments:

- Completing the mapping table strengthened our understanding of requirement coverage.
- Feedback received this week will guide improvements in future documentation.

Supervisor Feedback:

Supervisor Signature & Date:
